Construction Waste Management Plan (CWMP)

Project Address: _____ **Building Permit #:** _____

Project Name (if applicable): _____

Project Description: _____

Contractors Name: _____ **Lic#** _____ **Telephone:** _____

Email: _____

This construction waste management plan is hereby submitted to comply with Section 4.408.1 (residential) or 5.408.1 (nonresidential - is required whenever a permit is required for work) of the 2022 California Green Building Standards Code. The purpose of this plan is to identify and outline the methods to be used as the minimum requirements for a construction waste management plan.

The method of waste tracking to be used on this project will be: (Check one box)

Easy Method (see page EZ-2)

OR:

Advanced Method (see page EZ-2)

NOTE: If you checked advanced method you must complete a CWMP worksheet in order to track your projects recycling and/or reuse (diversion) measures.

The facility (or facilities) where the construction waste material will be taken is:

Name of Facility: _____

County: _____

Every effort shall be made to use recycling and/or reuse (diversion) measures to reduce the amount of construction waste and other materials sent to landfills. Whenever possible, site-sorted debris boxes shall be used to segregate construction waste materials to maximize the diversion rate. Waste reduction and recycling strategies shall be discussed at periodic project meetings. Each new contractor that comes onto the site shall be provided with a copy of the CWMP, which shall also be posted in the project office. The project manager shall also instruct all subcontractors as to the location and proper use of debris boxes for disposal of construction waste materials. In the event that a subcontractor provides their own debris box or off haul, the project manager shall be responsible for providing verifiable documentation which demonstrates compliance with the waste management requirements of the California Green Building Code.

Upon completion of the project the Contractor shall provide verifiable documentation which demonstrates compliance with the waste management requirements of the California Green Building Code is provided to the Healdsburg Building Division.

Pre-Construction and Demolition Recycling Plan

Recycling Construction and Demolition (C&D) Materials is REQUIRED.

Project Name: _____

Project Location: _____

Building Permit #: _____

Project Sq. Ft: _____

Owner Name: _____

Contractor Name: _____

Email Address: _____

EASY METHOD	STEP 1	STEP 2	STEP 3
	<p>Project owners, contractors or other permit applicants must <u>complete this form and sign on the next page</u>. Turn in pages EZ-1&2 prior to construction.</p>	<p>Self-haul or have your debris box hauler deliver C&D materials to a <u>Certified Facility</u> for recycling.</p>	<p>Collect receipts from Certified Facilities for all loads and staple them to the "Post Construction Recycling Documentation" form (EZ-3). Turn in completed EZ-3 along with Certified Facility receipts <u>prior to final inspection</u>.</p>

ADVANCED METHOD	STEP 1	STEP 2	STEP 3
	<p>Project owners, contractors or other permit applicants must <u>review CALGreen code Title 24</u> and understand the requirements of Section 4.408, 5.408, 301.1.1 and 301.3. Turn in pages EZ-1&2 prior to construction.</p>	<p>Develop a <u>Construction Waste Management Plan (CWMP)</u> using the Advanced Method form template (AD-1&2).</p>	<p>Implement your CWMP. Using pages AD-3&4 from the Advanced Method form, provide complete documentation of recycling <u>prior to final inspection</u>. Turn in pages AD-1-4 prior to final inspection.</p>

I certify under penalty of perjury that I will recycle C&D materials from my project via (check one):

- THE EASY METHOD:** Direct C&D materials to a Certified Facility and submit weight tickets with pages **EZ-3&4** prior to final inspection showing material is recycled from Certified Facilities.
- Reuse and/or deconstruct first.
 - Direct all C&D materials to a Certified C&D Facility or building materials reuse business. A list is available online: ZeroWasteMarin.org/CD
 - Save documentation of recycling (C&D Facility receipts) and submit prior to final inspection.

- THE ADVANCED METHOD:** Ensure and prove recycling of C&D materials via your CWMP. Requires submission of detailed information per CALGreen code, careful tracking of all materials generated by your project, and submission of documentation of recycling prior to final inspection. Use the “Advanced Method” form template.

*I certify that I have read the Advanced Method form template and that I will abide by its requirements and the requirements of CALGreen code. I will turn in **pages EZ-1&2** prior to construction and **AD-1-4** prior to final inspection.*

- I will use the Advanced Method form template as required and described under CALGreen code Title 24. The template is available at your building counter or at: ZeroWasteMarin.org/CD.
- I hereby certify (through selecting “Advanced Method” and signing below) that this project will adhere to the requirements stated on **AD-1&2**.
- Construction material generated by this project will be: (check appropriate box)
 - Sorted on-site Deconstructed and/or reused
 - Below the CALGreen threshold of disposal per square foot

WINDSOR MATERIAL RECOVERY FACILITY

A division of M & M Services, Inc.

February 6th 2019

RE: WINDSOR MATERIAL RECOVERY FACILITY RECYCLING CERTIFICATION "WMRF"

To Whom It May Concern:

The Windsor Material Recovery Facility, aka WMRF, (M&M Services, Inc.) facility SWIS # 49-AA-0398 is a permitted Medium Volume CDI Facility located in Windsor California that accepts mixed construction and demolition loads, as well as many other types of inert (clean recycling loads) material. All incoming loads are sorted and processed to remove recyclable material.

WMRF makes available monthly and quarterly reports to the Sonoma County Local Enforcement Agency, Sonoma County Waste Management Agency and many other governing jurisdictions for their state reporting requirements. The following data is the details for the diversion percentages.

- January 2019
 - 2,913.77 tons were received by WMRF.
 - 1,851.77 tons were removed from the waste stream and recycled.
 - 958.77 tons were landfilled.

This equates to a recycling rate of **65.9%** for the month of January 2019.

Questions concerning this letter may be directed to Dustin Abbott at 1-877-698-8473

Sincerely,

D Abbott

Dustin Abbott

CFO / Vice President
