

Net Energy Metering (NEM) Surplus Electricity Selection Form

Customer Information (as it appears on your monthly statement):

Customer or Business Name	
Street Address	
City, State, ZIP	
Phone	
Service Account #	

NEM Surplus Electricity Compensation Option (please check one box below):

- I am interested in receiving compensation for the surplus electricity I generate during my 12-month relevant period; which will be issued at the City's current Net-Surplus compensation rate.
- I elect to be allowed to apply any net surplus electricity as a future credit for electric, measured in kilowatt hours, subsequently supplied by City of Healdsburg to me (us) at the specified Electric Account number. I understand that a true-up will be performed and any net surplus credit to remain on my account will be based on the City's current Net-Surplus rate.
- I am not interested in participating in the program and elect not to receive compensation.

Annual True-Up Period Selection (please check one box below):

- I elect to enroll in the new program now.
- I elect to enroll in the new program in a different billing month. Please enroll me in [month] _____. At that time, please perform the normal account reconciliation for my current annual true-up period and start a new true-up period for my account.

By completing and returning this form to City of Healdsburg, I confirm the above NEM surplus electricity compensation and relevant period sections. I understand that the terms of my selection are subject to any future changes directed by the legislature or the California Public Utility Commission.
